Chantal,

What you are looking at is the original Serial number for this rework. I did pencil in on the packing list the serial number we gave to this part under the original packing list 15377 since it had already been assigned a serial number(15377-2) we did not include it in the new packing list (15431). Please ignore 15431-1, the change in serial numbers was annotated on the CoC, it is traceable in our system but if you wish I can send you a revised packing list and CoC. Let me know!
